Preceptor Tools & Tips: One thing I find helpful with my students is to ‘make them think out loud’, in particular when I ask them a question they tell me they don’t know the answer to off the top of their head. I find by making them describe their thought process out loud and providing them with a little guidance, they often know the answer and just needed help in how to approach the question. I also try to make sure the students are having some fun on my rotation – I believe they perform better if they are enjoying what they are doing, while learning.

3. Acknowledge – Make sure they know you are listening and understand
4. Show your concern – Show empathy toward their concerns

Reminder of SSPPS Rotation Absence Policy

- Students are to contact both their preceptor and the Office of Experiential Education (Lisa Avery lavery@ucsd.edu for APPEs and Amber Berean aberean@ucsd.edu for IPPEs) if they are unable to attend the rotation due to illness or emergency.
- Missed rotation time will need to be made up at the discretion of the preceptor.
- The preceptor’s approval needs to be secured in advance if a student needs to be absent on a scheduled rotation day.
- A plan should be developed by the preceptor and student for the completion of missed time from the rotation, if the preceptor deems necessary.
- Conditions for excused absences: Students are encouraged to attend professional meetings and interviews required for residency application activities. It is the responsibility of the student to organize these dates in ways to minimize the impact on their educational experiences. Students are expected to work with their preceptors when planning/scheduling interview dates.
