

Student Generative Artificial Intelligence Use Pledge

The University of California (UC) San Diego Skaggs School of Pharmacy and Pharmaceutical Sciences (SSPPS) requires all students to sign this pledge.

As a student committed to academic integrity and responsible learning, I pledge to use generative AI ethically, transparently, and in alignment with UC San Diego and SSPPS policies. I agree to the following:

1. **Honesty and Integrity:** I will use generative AI tools to complete assignments, assessments, or other deliverables in accordance with the guidelines outlined in the course syllabus, practice site learning descriptions, and SSPPS policies and guidelines.
2. **Transparency:** When permitted to use generative AI tools, I will clearly acknowledge and document their use, including which tools were used and the prompts used as described in the course syllabus or practice site learning description.
3. **Permission First:** I understand that the use of generative AI is only allowed when explicitly permitted by the course chair(s) or preceptor(s) as described in the course syllabus or experiential site learning description. If I am uncertain, I bear the responsibility of asking for clarification before using such tools.
4. **Critical Thinking:** I understand that AI generated content should not be accepted at face value. I understand that I am responsible for the accuracy of the information I provide, including citing references to support any facts I state or claims I make.
5. **Clinical Judgment:** I understand that AI generated content is not a substitute for my clinical judgment. I understand that the misuse of generative AI in clinical settings could lead to serious consequences, including causing harm to patients.
6. **Ethical Use and Responsibility:** I will not use generative AI tools to cause harm, generate false information, bypass academic rules and standards for academic honesty, or compromise patient data privacy as protected by the Health Insurance Portability and Accountability Act (HIPAA). I understand that the misuse of generative AI tools will qualify as academic dishonesty and may result in disciplinary actions outlined by SSPPS and UC San Diego policies and guidelines.

By signing this pledge, I affirm my commitment to upholding these principles and recognize the importance of using generative AI responsibly within SSPPS.
